FedRAMP Program Launch

DEMYSTIFY FEDERAL COMPLIANCE AND UNLOCK NEW BUSINESS Companies must demonstrate FedRAMP compliance to offer their products and services to the US government. The process can feel daunting to commercial companies pressured to maintain business velocity.

Program Approach

FedRAMP touches nearly every aspect of your business. Many variables influence the effort required to prepare a system for audit and authorization.

From Day One, our ScaleSec specialists begin architecture, controls, and documentation reviews. Concurrently, our project manager begins aligning quality, schedule, cost, and scope with your expectations.

Our project manager is your point person throughout the system preparation and documentation acting as the liaison between teams to unblock issues, smooth processes, and maintain schedules with:

→ Daily stand-ups, 2-week scrums

→ Defined deliverables / milestones

→ Iterative updates at a frequency you desire

→ Optional interface with government sponsors

Program Milestones

ScaleSec proposes milestones to measure completion of the FedRAMP process, including but not limited to:

1. Completion of gap analysis for the FedRAMP Readines Assessment Report

2. Design and engineering support for your FedRAMP-compliant SaaS environment

3. Platform is approved by the FedRAMP PMO, "FedRAMPReady"

4. Documentation package is submitted to the 3PAO for assessment

5. Your platform has received a PATO or ATO from the FedRAMP PMO/sponsoring agency

Achieving FedRAMP authorization requires significant effort and validates that your system has met one of the highest standards for security, and unlocks sales to the US Government and other third party partners looking to create a secure system of systems offering.

At ScaleSec we specialize in helping customers meet the most demanding cloud security and compliance objectives. We are seasoned, certified professionals with years of security experience in the trenches.

We know the challenges your teams face, and the proven solutions to unblock them.
